What's your archaeology?

There are so many different parts to being an archaeologist. It could be digging, drawing, cleaning and sorting finds, cleaning and sorting bones or pottery, etc.

What interests you most and why?

What got you interested and where do you want to take it from here?

Wat's on Offa?

This is an open discussion forum about Offa's and Wat's dykes and how they relate to the Offa's Dyke Association and what's going on at the Offa's Dyke Centre.

Ask an archaeologist

Ask an archaeologist is our version of the Twitter #AskAnArchaeologist.

I am an archaeologist and currently work in Outreach and Community Projects providing resources for schools, groups and clubs including regular talks and events.

I know other archaeologists too so if you have a questions let us know in the forum and we can get back to you on there or in an email (do not leave your email address in the forum posts!).
